Unit 3-21 Polygon Game

The above letters can be used to make a 7 letter mystery word (**it is not a list word**) and other words. Mystery word clues: It has two syllables; no double consonant; an /er/ sound not made using 'e'; it has a silent e - but the vowel before it breaks the general rule and remains a short vowel sound; it means 'to plan or aim'. See the game rules and hints below.

Use your dictionary to check or find words.

Score: 6 words average, 8 good, 10 very good, 12 excellent. (30)

Rules:

Easier challenge: Using the given letters no more than once, make as many words as possible of **three** or more letters.

For a more difficult challenge: Use the given letters no more than once, make as many words as possible, of **three** or more letters, always including the central letter '**S**'. Capitalised words (proper nouns), plurals, conjugated verbs (past tense e.g., 'hide' not 'hides'), adverbs ending in LY, comparatives and superlatives (adjectives e.g., safer, safest) are disallowed.

General rule:

Do not use acronyms (e.g., ABC) , contractions, rude words or slang.

Hints for solving:

- Look for beginnings, such as UN- or SUB-, and endings, such as -ER or -ISM. Look for blends, such as ST, PR or ND.
- Write the letters in a different order; you may spot something different.
- Don't forget to look for words that begin with a vowel.
- When you find a word, try reading it backwards, to see if it suggests another word.
- When you find a word, try to find all the rearrangements of its letters that also form words.
- When you find a word, try substituting the remaining letters into it.
